PACIFIC COAST DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Nov. 18.—The Board of Regents of the University of California accepted the resignation of Wm. Watt as regent. A resolution to appoint Willet J. Rising to the chair of mining and metallurgy, at $2,000 per annum, and declare the chair of English literature vacant, will be acted on at the next meeting.

Emma Gosch sues the proprietors of the Chicago Hotel for $10,000 damages, for breaking her leg by tripping on a dilapidated stair carpet and falling down stairs.

The Republican County Committee is engaged in examining witnesses as to the alleged frauds in the First Ward primary election.

A suit is commenced to place J. B. E. Cavalier, the stock broker in bankruptcy. His assets are set down at sixty thousand dollars; liabilities, eighty to one hundred thousand dollars.

The persons indicted for dealing in lottery tickets, or aiding and abetting lotteries, demurred to the indictments, and Judge Lake took the matter under advisement. The opinion of many lawyers is that the demurrers in several of the cases at least will be sustained. It is understood that parties in the interior counties, who are being harrassed by these indictments, are preparing to procure indictments against newspapers in San Francisco, who have advertised lotteries and now join in the outcry against them, and will have the cases tried in the counties where the indictments are found.

It is stated that Mrs. Hawes, previous to the decease of Hawes, swearing to be left totally destitute, had a notice of homestead claim upon the Mount Eden estate in San Mateo county without his knowledge, which in itself would materially interfere with carrying out the provisions of the will.

Sale of seats for the coming Kellogg Opera Season commenced to-day, and nearly 100 were sold at $50 each, and all but two of the boxes at $300 to $400 each.

Deaths in the city last week, 50; still births, 5.

The running race for $1,000 a side, between Noll Flaherty and Atchison, mile heats, 3 in 5, over the Bay District Course, half mile track, this afternoon, was witnessed by large number of people and gave general satisfaction to everybody except the knowing ones, who all lost their coin. The weather was fine though cool, and the track a little heavy. Noll won the first heat in 1:47½; Atchison the second in 1:48½; Noll the third in 1:30½; Atchison the fourth in 1:52½. It was the opinion of everybody that had Atchison been pressed he would have won the third heat. Noll failed fast toward the end, and Atchison on the two concluding heats had it all his own way. Eoff and Woodward are reported to have lost about ten thousand dollars between them in this race, and many other old horsemen lost heavily. Had the track been dryer and the weather warmer the time would have been four or five seconds less. Every heat as it was, was one of the prettiest contested races ever seen in California.

A blast carelessly let off in the cut on Townsend street, between Second and Third, yesterday, scattered rocks weighing hundreds of pounds each, in every direction, doing heavy damage: one rock went through the gasometer of the San Francisco Gas Co., letting all the gas escape. Another went through the roof of the Central Pacific Railroad Co.'s warehouse. Luckily no one was killed.

INTERIOR CALIFORNIA DISPATCHES.

From Vallejo.

VALLEJO, Nov. 18.—The U. S. ship *Pensacola* left for San Francisco this afternoon. In moving down the bay she fired a parting salute, which was returned by the battery on Mare Island.

The *Webfoot* completed her cargo of railroad iron for Portland, and passed out into the stream.

The Prisbie Guards having lost their uniforms, guns, ammunition, etc., by fire, concluded to use the fund raised by them at their ball for the Chicago sufferers, to replace the things necessary for their Company.

From Los Angeles.

LOS ANGELES, Nov. 18.—The railroad convention assembled at Anaheim to-day. The convention adopted a resolution in favor of giving up $225,000 worth of stock held by the city and county in the Los Angeles and San Pedro railroad, and granting an additional subsidy, amounting in all to upwards of half a million dollars, to aid in the extension to San Bernardino. The Santa Anna and Anaheim delegates withdrew without voting on the resolution. The press of the country is taking sides upon the railroad question, and it bids fair to become a leading local issue.

CONDENSED TELEGRAMS.

There is no excitement at Salt Lake, and saints and sinners chat together on the situation like old friends.

Strikes have been commenced by workmen in various parts of Spain, in accordance with orders from abroad.

At Los Angeles a large number of persons have been arrested for participating in the murder and robbery of the Chinese.

A Bavarian Representative in the German Parliament at Berlin, has proposed a bill for the prosecution of unpatriotic clergymen.

Much treasure continues to go East from San Francisco by Panama steamers. The last one which sailed Friday took $135,000.

The Fisk-Mansfield suit is still the "great scandal" of New York, and a prominent Wall street broker will be called in to testify upon it.

The late killing of twenty-eight Apaches by the Pimas in Arizona was caused by the former stealing two head of cattle and some horses from the latter. The victors arrived at Sandford and celebrated their victory.

Since July, the commencement of the present harvest year, San Francisco has shipped twenty cargoes of wheat, aggregating 542,000 centals, against 215,000 centals for the same time last year. The *Abby* took down from Portland 9,850 centals, which was purchased by the Golden Age Mills.

A QUAKER ON TIME.—A committee of eight gentlemen had an appointment to meet at twelve o'clock. Seven of them were punctual, but the eighth came bustling in with apologies for being a quarter of an hour behind time. "The time," said, "passed away without my being aware of it. I had no idea of its being so late," etc. A quaker present said, "I am not sure that we should admit thy excuse. It were a matter of regret that thou shouldst have wasted thine own quarter of an hour; but there are seven besides thyself, whose time thou hast also consumed, amounting in the whole to two hours, and one-eighth of it only was thine own property."

LIFE'S CHANGES.—At almost every step in life we meet with young men from whom we anticipate wonderful things, but of whom, after careful inquiry, we never hear a word. The effervescence of youth and passion, and the fresh gloss of intellect and imagination, endow them with a false brilliancy, which makes fools of themselves and other people. Like certain chintzes, calicoes and ginghams, they show finely on their first newness, but cannot stand the sun and the rain, and assume a very sober aspect after washing day.

The Cincinnati *Times* thinks that the threat of the Mormons to burn Salt Lake City in case they are obliged to leave it for the love of polyatny need not awaken any great anxiety. their devotion to their prophets is not the thing it was in the days of Nauvoo, and their prorerty has vastly increased. When it comes to a choice between a freehold estate and one wife, and a pile of ashes and three or four wives, polygamy will suffer.

OREGON.

Snow fell to the depth of two inches in the valleys of Baker county a week ago.

Fifty new buildings have been erected in Eugene during the last four or five months.

Forest Grove has subscribed $325 to the fund for the relief of the Wisconsin and Michigan sufferers, $238 87 of which has been placed in the hands of Mayor Wasserman of this city. Forest Grove has done better in proportion than any other place we have heard of.

An Eastern Oregon paper—litigant organ—says apologetically that litigant advertisements have poured in upon it in such numbers as to crowd out its editorials. No apology is needed. On the whole the litigant ads. are about as interesting as ordinary Democratic editorials.

A young man giving his name as Sullivan was arrested at Eugene on Friday on a charge of forging the name of Capt. Eskridge, of Vancouver, to a check for $36 14, which he presented at the Shade House in Eugene in payment of his board. He was locked up in default of bail.

The O. S. N. Co., says the *Mountaineer*, will have taken down the Columbia river from Walula, by the time the present season closes, about three thousand tons of freight, composed of wheat, barley, flour, bran, etc. Thus gradually has this trade increased until it has assumed its present importance.

It is now an established fact that good crops of cereals can be got from sage brush lands. The Baker county *Democrat* says: Mr. Baldock, living about two miles northeast of this place, informs us that he has raised on his place the last summer 415 bushels of barley on twelve acres of ground. This is at the rate of about thirty-five bushels to the acre, and when it is considered that the land is the ordinary sage brush land and had not been enriched by fertilizers a particle, we consider it worthy of record. It was irrigated a little. Such facts are gradually dissipating all old theories relative to the value of sage brush lands.

THE TERRITORIES.

The tides at Olympia have been unusually high, inundating several streets which have heretofore been above its reach.

The Legislature of Washington Territory is considering a bill to authorize Frank Clark to get up a lottery to pay his debts and the debts of the Territory. The bill will pass. What next?

The *North Western Home*, a paper published monthly at Vancouver, contains in every issue articles of unusual excellence. The *Register*, also is better than it ever was before. Vancouver is fortunate in both of her papers.

POLITICAL NOTES.

Ninety-eight Republicans to thirty Democrats is the latest reported status of the New York Assembly.

It is alleged that 15,000 illegal votes were polled at the late election in New York City, and that thirty-six "repeaters" are to be tried for the offense.

The "repeaters" had a jolly time in Brooklyn, New York, on election day. They cast some ten thousand fraudulent votes, and the Democratic ticket was elected by about that majority. It is said that lamp posts and hemp are scarce in the "City of Churches."

The Republicans of Salem have nominated the following candidates for Council: First Ward—O. J. Carr, W. L. Wade; Second Ward—T. B. Rickey, A. J. Monroe; Third Ward—G. H. Jones, R. P. Earhart. Delegates have been chosen to a City Convention to nominate Mayor and other candidates.

The Sacramento *Union* gives currency to the report that a certain Democrat in the California Legislature will urge the election of Thomas H. Selby as Senator, with the hope that a sufficient number of Republican members may be induced to join with the Democratic members to secure his election. The good advice is given to watch all men who are endorsed by the Democracy.

The Boston *Advertiser* thinks that the thieveries in New York arise from the avarice of New York business men. Those shrewd financiers struck a balance somewhat thus:

Dr. My Political Duty, In account with my Business. Cr.
To public meetings, my share of taxes, as far as I couldn't dodge paying, any.....$50 00	By time saved for business, in not nominating, organizing, or voting, any.....$100 00

To violate the most solemn duties which the merchant owes to his country and his fellow-men is a poor gain of fifty dollars, and he violates accordingly. Hence Tweed. To follow up a cheat and punish him costs a hundred times as much as to suffer his impositions; therefore, suffer it.

The New York *World*, the great Democratic organ, now calls Tweed a "felon," but says he can't be defeated because a large majority of the Democrats of his district are "thieves." It calls this district a "political sewer," a disgrace to the nation," etc., and says it is made up of the dregs of the earth, who can neither read nor write, and live by crime. When a Democratic paper admits that the place where Democracy flourishes more than in any other part of the United States, is the abode exclusively of thieves, scoundrels, and the vilest trash of the earth, it is time for honest Democrats to consider whether they can afford to longer associate with and vote for such a party. The *World* says that with the exception of a few regular boarders at the Astor House and a couple of small hotels on Courtland street, "there are no decent or honest people in this district." Yet it was the vote of this district that gave the vote of the State of New York to Seymour in 1868, and it is the only reliance of the Democratic party to elect a President next year. For without this district they could not pretend to carry New York State, and without New York they stand no chance whatever of electing a President.

A horrible murder was committed near Osage Mission, Kansas, on the night of November 6th. The facts elicited at the Coroner's inquest are as follows: John P. Flanagan, the perpetrator of the crime, has recently met with pecuniary losses, and resolved to dispatch himself and family. On the 6th inst. he procured chloroform, and during the night administered it to his wife and two little girls, aged respectfully ten months and two years. About 4 o'clock in the morning Mrs. Flanagan awoke from her stupor produced by chloroform and discovered her husband in the act of driving ten penny nails into the head of one of the children, and flying to the rescue of her babes, she found them expiring from the effect of blows inflicted with a hammer and nails. She succeeded in disarming the husband, and gave the alarm and he was given into custody.

Chicago is very sorry, says the *Post* of that city, that they could not keep their fire until the arrival of the Russian Grand Duke. They would take pride, however, in showing him Mrs. Leary's cow and the Postoffice paper observes that hereafter no museum will be complete without one of this cow and an equal number of this cat. Elsewhere it rhymes in this fashion:

"There was a bovine of Chicago,
Who made up her mind to lift law so;
This wicked old tramp
Kicked over a lamp,
And away on the wind went Chicago."

"That fellow's got in the wrong grave," said one gentleman to another in a cemetery. "How so?" "Because I know him to be a forger and a thief, and yet look upon that epitaph." "Be cnareful," said the other, "how you speak, for none of us can live up to our epitaphs."

CURRENT NOTES.

A terrible sand storm recently took place in Southern California, in which from 30,000 to 40,000 sheep perished.

A severe battle between Mexican regulars and a large force of rebels took place a short time ago on the historic field of Buena Vista. The insurgents, after hard fighting, were driven off.

It is said that the philosopher Horace Greeley is the only obstacle to the reunion of the Republican party in New York. He would harmonize if assured of the Presidential nomination. He isn't much of a philosopher after all.

Mr. Yung Wing, a Chinese gentleman, who was educated in Yale College, has been engaged to take charge of thirty students to the United States, and the Chinese Government has voted a grant of $1,500,000 to meet the expenses for the ensuing ten years.

A Chicago paper of the 6th says: About forty thousand people—think of it—daily eat the bread of charity in this city. Good friends abroad, do not be afraid that you may send too much aid for our sufferers. The winter is coming, when work must largely cease, and many more may be unable to earn their bread. The need is still very great.

On the 13th inst. Cyrus W. Field was at Washington completing arrangements connected with the great Telegraphic Convention to be held at Rome next month. Mr. Field is cognizant of the success of his scheme to girdle the earth with his wires. The only link in the communication now needed is that between San Francisco and China via Sandwich Islands.

Prof. Young, of Dartmouth College, an astronomer of considerable note, publishes an account of a remarkable explosion in the sun which took place under his observation on the 6th September last. Portions of matter rose with a motion almost perceptible to the eye to the height of 200,000 miles. The change in the spectrum showed that many new forms of matter were brought to the surface by the explosion.

The Chicago *Journal* says: It is now believed that a large per cent. of the persons burned to death in the fire were thieves. The love of plunder kept them in the buildings until every way of escape was cut off, and they perished in the very act—a swift and fiery retribution overtaking them in the midst of their wickedness. If we could tell that any very considerable number of these wretches were smitten in this way, it would in some slight degree compensate for the sadness of the great calamity.

About one-third of the national income of Russia is required to "run" her War Department, and the navy absorbs a further sum of fourteen million dollars annually. The receipts of the Treasury Department for the last fiscal year were about three hundred million dollars, and the sum of one hundred and thirty-five million dollars will be required for the army and navy. If this is true in time of peace, what proportion of the Russian income will be required in case of a great war, such as is probably impending, in which Russia must take a hand?

A Distinguished English Scholar Murders his Wife.

The English papers give accounts of an extraordinary murder committed by the Rev. T. S. Watson, M. A., for many years headmaster of the Prophetic Grammar School at Stockwell, England. He lived with his wife and a female servant named Ellen Payne, who has lived with them for three years, in a large house in St. Martin's road, at the back of Stockwell crescent. From the statement of the young woman it seems that on Saturday evening, October 8th, she left the house and did not return till 10 o'clock. When she left, Watson and his wife were sitting in the library on the first floor. When she returned her master told her that her mistress had left for the country and would be absent five or six days. She was a little surprised at this communication, but made no comment, and from her statement did not seem to think much about it. Watson retired to rest at the usual time. No disorder was apparent in the room, but the next morning the girl called the attention of her master to a large dark stain on the carpet and floor at the library door, when he replied with great coolness, "Oh, there was an accident last night. I spilt a decanter of port wine there, and wiped it up as well as I could." All day he seemed busily engaged in putting his books in order and writing.

It turned out that, having committed the murder, the coroner has had determined upon was to poison himself with prussic acid, and the subsequent inquiries of Dr. Rugg have resulted in obtaining the information that the object of his walk on Tuesday was to buy the drug. At the first chemist's shop at which he applied, although well known, the proprietor refused to serve him, but it appears he must have obtained some kind of mixture, for on his return home he told the girl that if anything happened to him in the night she was to send at once to Dr. Rugg. Whether he made any attempt of his life then is not known, but if he did it did not succeed, and on the 11th he rose as usual and wrote some letters, which he left upon the dressing-table, and which are now in possession of the police, one of them being addressed "To the surgeon." He then retired to bed again, and about 11 o'clock the servant in great haste came to summon Dr. Rugg, saying that her master was in a fit of apoplexy. In a short time Dr. Rugg was at the house, and on being admitted the servant put a letter into his hand, which was to the following effect:

"In a fit of fury I have killed my wife. Often and often have I endeavored to restrain myself, but my rage overcame me and I struck her down. Her body will be found in the little room off the library. I hope that she will be buried as becomes a lady of birth and position. She is an Irish lady and her name is Anne. The key will be found in a letter on the table."

And then follows a name which has been erased, but which is apparently a surname. On seeing this letter Dr. Rugg immediately rushed up stairs to the bedside of Watson, whom he found in a very weak state and speechless, apparently suffering from violent poison, which had not taken effect. He administered a sedative, and proceeded at once to the chamber indicated, in company with the servant girl. There a horrible spectacle confronted them. Huddled up in a corner of the room, her knees touching her chest, her hands convulsively clutched, and her head fallen over to her chest, was the body of the unhappy lady, her clothes saturated with blood, which still seemed to ooze from the body in a dark, almost purple pool. On examining her Dr. Rugg found her head smashed in, and, in places, almost beaten to a jelly.

Watson graduated B. A. at Trinity College, Dublin, in 1838. Has published several volumes of "translations" from the classical authors, including Lucretius, Xenophen, Sallust, Quintilian, Florus, Justin, etc., and has written a "Life of George Fox," published in 1860; a "Life of Richard Porson," and "Sons of Strength, Wisdom and Patience," in 1861; a "Life of Bishop Warburton;" "The Story of Wm. Wallace;" a work on "The Reasoning Power in Animals;" editions of Pope's Homer's "Iliad" and "Odyssey," in Boon's "Illustrated Library;" and small annotated editions of Sallust's "Catalina" and "Jugartha," and "Terence's Andria." It is said that he has been for some time engaged on a history of the Popes.

A sick man was once told that his wife would probably marry again. "All right," said he, "for there will be one man to lament my death."

Still Another Remarkable Cure.

A PATIENT GAINS 16½ POUNDS AND RECOVERS HIS HEALTH IN FOUR WEEKS UNDER THE SKILFUL TREATMENT OF DR. ABORN.

This is to certify that I have been afflicted for three years, and that I kept declining slowly until the latter part of last May, when I was taken down suddenly, since which time, as before, I could get no relief. My disease baffled the skill of every attempt, and only left me weaker, until death would have been a relief at many times. Four weeks ago to-night I placed myself under the care of Dr. Aborn, whose treatment gave me immediate relief, and I continued to gain so rapidly until now, after using his medicine only four weeks, I have gained fifteen and one-half pounds, and feel like a new man.

ANOTHER REMARKABLE CURE

OF A

CHRONIC DISEASE OF THE

THROAT, LUNGS & HEART.

I wish to say to the public that I have been troubled with a disease in my chest, lungs and heart for the last five years, and have been treated by doctors in San Francisco and Oregon, but found no relief as I have found since I commenced taking Dr. Aborn's medicines, which has only been about four weeks, and I have gained nine pounds in fact, I feel almost like a new man. I continued improving from the very first day, and have continued to improve ever since. Furthermore, I would say, that the Doctor's treatment is entirely different from any that I had ever taken before. I would say to all that are afflicted to give the Doctor a call, as they will find his charges reasonable and his medicines magical in their effects.

The "Organ's" Fabrications.

There is apparently no end to the fabrications of the Democratic organ. In Saturday's issue it attempts to show that there is a great discrepancy between the several statements of the public debt. We quote this:

> The Secretary of the Treasury, Mr. Boutwell, in his report of the public debt, as published in the OREGONIAN of April 3, 1869, states the principal, on the 1st of March preceding, at $2,527,696,461. Let it be borne in mind that Grant's Administration came in on the 4th of March, 1869, and Boutwell, his Secretary, stated the amount of the public debt to be as above, on the 1st of the month. Now observe: for September 1, 1871, in his monthly report, Mr. Boutwell states the debt at $2,368,202,619.

The *Herald* then proceeds to say that the reduction of the debt from March 1st, 1869, to September 1st, 1871, is of course, the difference between these two sums, thus:

March 1, 1869, debt	$2,527,696,461
September 1, 1871, debt	2,368,202,619
Reduction	$ 159,493,842

The next step in this computation is the addition of $22,000,000 for reduction of the debt for the months of September and October, 1871. Concluding this operation the *Herald* says that Secretary Boutwell makes the aggregate reduction from the beginning of Gen. Grant's Administration down to the 1st of the present month amount to $181,493,842. The New York *Tribune*, in an item copied by the OREGONIAN states the reduction at $263,755,812. Here, says the *Herald*, is a "slight difference" of $82,261,970. And that paper asks: "Whom shall we believe?"

Just see how plain a statement will put all the *Herald's* fabrications down, and place it, besides, in the unenviable light of a deliberate perverter of the plainest facts.

It begins by saying that in the OREGONIAN of April 3d, 1869, there was published a report by Mr. Boutwell on the public debt, in which he stated the principal on the 1st of March preceding at $2,527,696,461. The OREGONIAN of April 3d, 1869, *contained no statement by Mr. Boutwell or anybody else of the amount of the public debt on the 1st of March*, 1869.

Second, the *Herald* says that Mr. Boutwell in his monthly report for September 1st, 1871, *states* the debt at that time at $2,368,202,619. *He does nothing of the kind, but states it (less cash in the Treasury,)* at $2,274,122,560. Here the *Herald's* misstatement involves an error of over eighty-four million dollars.

That paper's fabrications are so gross and so without semblance of truth that it is not necessary to follow them further. The reader will see, after this exposure, how much weight attaches to its expressions of belief at the close of its article, that "no considerable amount of the public debt has been paid since Grant came into power," and that "the whole thing is a delusion to deceive the people and keep up false appearances." A paper that habitually tries to palm off forged and fabricated statements for official reports will have poor success in trying to convict others practicing deception.

The "Departure" Most Needed.

We have been taking our facts and data, in what we have said, from that "financial report" sent us by the Oregonian "for our information," it was hardly for us to dispute what "that book" says. We thought that the expenditure of more than six billions in six years, and in time of peace, ought to be sufficiently startling, when the fact is shown in their own book.—*Herald.*

It so happens that the "book" shows no such thing as the *Herald* wishes to establish. That paper is quoting the book in such a way as to misrepresent and give a false color to all its statements. It knows very well that it is doing *this*. It is including in the aggregate of expenditures the whole amount of currency, coin certificates, compound interest notes and funds of all descriptions redeemed during the last six years, including interest paid on the public debt, and hundreds of millions of worn-out greenbacks called in to be exchanged for new issues; and is pretending that all this money has been squandered. Deduct these payments and redemptions, and the net expenditures for six years ending June 30, 1870, are less than one-third of the amount stated by the *Herald*; and more than half of this one-third was expended in the last year of the war.

That paper for several months has been consciously and deliberately misrepresenting this matter. It does not want to state the truth, but exerts what ingenuity it possesses to prepare and set forth "figments to truth opposite." This is a regular habit with most journals of the *Herald's* party. Can they suppose that such a course will do their party any good? This habit of misrepresentation, deliberately and systematically persisted in by the Democratic press, is the greatest drawback which that party suffers. It is trying various dodges, expedients and departures, with a hope of better fortune; but what it wants most of all to lift it on its feet is a new and radical departure in the direction of truth and honesty. But if it should quit all its unworthy devices and go to truth-telling, it would be the Democratic party no longer. Such a suggestion may be opposed on the ground that it would cause the disbandment of the organization.

The country is well satisfied, on the whole, with the administration of the national finances, since it has the best reason to believe that they were never better or more honestly managed than under the present administration.

Who is Benefitted Most?

It is an error to argue, as some do, that a protective tariff necessarily increases the price of dutiable goods. But a protective tariff, whether it enhances the price of particular articles or not, still protects them, because it gives the home producer the advantage in the market. It prevents the foreigner from flooding the market and thus from crowding out the home manufacturers. It furnishes labor at good wages, and thus protects the working men more than it does the manufacturer. Thus in the case of iron, of which we import immense amounts, and which furnishes a large proportion of the revenue, and which is talked about most by free traders, the price is raised slightly by the tariff, but nothing like the full amount of the tariff. But who is benefited by that? We have British authority for saying that *ninety* per cent. of the price of every ton of iron produced in this country represents labor. The *British Iron Circular* informs us that even with the present high tariff American manufacturers cannot compete with the British manufacturers, because labor is worth so much more in this country than in England—that is, the foreigner can pay the full amount of the duty on iron, high as it is, and still make more money than the American manufacturer. Thus the workingmen receive nine-tenths of all the benefit derived from the protective tariff on iron. It should be understood that under free trade, with all the American furnaces closed and no competition, the British manufacturer would be perfectly safe in advancing the price of iron above the present price. Labor in England costs about one-third as much as it does here, and nine-tenths of the cost of iron is labor. In the conversion of the raw material into manufactured goods, the largest proportion of the cost is labor. Hence the tariff on all manufactured goods whether it embraces the price or not, protects labor, far more than it does capital.

We had intended to call attention on Saturday to Judge Deady's opinion in the case of McKay, who brought an action against the judges of election of Dallas for their refusal to permit him to vote at the election last year. This opinion is quite important, and will be reprinted from Saturday's DAILY OREGONIAN in the supplement of the WEEKLY of the 25th. It is held that McKay was born under the allegiance of the British Crown, and that as he has never been naturalized or taken steps for naturalization he cannot vote. He was born at Fort George, Astoria, of a British father and an Indian mother, while that place was in obedience to Great Britain, and must be naturalized to secure his citizenship. Beyond doubt there are many persons in Oregon whose status is the same as McKay's, who have been voting without question. If they wish to make sure of the enjoyment of the privileges of citizenship they had better be looking after this matter.

The Sacramento *Union* is waging a vigorous fight for the organization of the California Legislature in the interest of the people and against the great railroad ring of that State. This ring tried to control the party conventions and the *Union* beat at that, and the result was a splendid Republican triumph in the election. It is to be hoped that it will have equal success in its present fight.

Before the election in New York the *World* said: "If Grant and his tools should carry New York, the Democratic party of the nation may hang its harp on the willows, and sit down by the waters of Babylon and weep." Well, New York was carried; it is now in order for the *World* and its party to play their part of the programme.

SAN FRANCISCO, Nov. 19.—The United States steamer *California*, flagship of the Pacific squadron, sails for a winter cruise down the west coast of Mexico to-morrow or Tuesday.

In the case of Lehee, found shot and supposed to have committed suicide, every witness obtainable has testified before the Coroner; but one of the jurors declares that as he is not positive on the subject, no one having seen the shot fired, though several heard it, his conscience will not allow him to return a verdict of suicide, accidental death or murder, all the rest being convinced it was a case of suicide. The Coroner has adjourned the inquest till Monday evening, and says that if they don't then agree he will lock the jury up all night and try the effect of hunger on the obstinate old man.

Weather is warm and clear.

Nearly everybody is out of town to-day.

It is expected the Hawes will case will be on trial all this week, and perhaps run over into next week, should the executors attempt to rebut the testimony already offered, and that of 30 witnesses yet to be heard.

Referring to the above, we desire to call your especial attention to the features of this Company: The business of the OREGON BRANCH is conducted under the supervision of a Board of Directors, elected by the stockholders resident within this State. The entire receipts, both Fire and Marine Premiums, as also the Capital Stock, subscribed within this State, is retained and INVESTED HERE by the Board of Directors, thereby relieving, in a measure, the constant drain upon the resources of the State, by the annual withdrawal of large amounts of money paid for Insurance.

Losses will be fairly adjusted and promptly paid, without the intervention of foreign adjusters.

MONDAY MORNING, NOV. 20, 1871.

CITY.

NOTHING TO WONDER AT.—Several Oregon papers are filled with wonder and exclamation at the account given by a local editor of a paper in this city, of a verdant couple who, it was represented, called on him at his sanctum, at the dead hour of midnight to get "knocked into the married State." They seem to take it as the true story of an actual occurrence, never dreaming that, like many another, appearing from time to time in the same columns, it came from having a plethoric scrap book handy. Scrap books are blessed things, when real events stubbornly wont happen. They save the reporter many a "tramp, tramp," through wet and gloomy streets at witching hours, when bums and slums are out and waiting in dark nooks for unwary customers. All he has to do is to quietly and at his leisure turn over the leaves, select a good and laughable story—the events of which might have happened here if they didn't—dress it up to suit the particular latitude and longitude, and run it in with a proper number of sensation "head lines," exclamation points, etc., etc. Thus, Joe Miller and the long line of jokers and story-tellers who lived before and after him, may be turned to practical account over and over and over, as often as the reporter changes his latitude or longitude. Thus the story at which our grandfathers laughed their buttons off is made to tickle us till we are in a fit state, almost, to tumble over and ask somebody to have the kindness to pound us on the back, or bring us back to consciousness with a dash of cold water in the face. Thus, any particular item of human happiness may be not only perpetuated from one generation to another, but toted around the world in a carpet-bag and hoisted upon guffawing crowds as often as the reporter shall find himself far enough from his last place, to venture the joke as original or new. Who shall say that scrap-books were not suggested by genius, or who that they have not a divine mission, to save muscular trouble?

PRESENTATION.—On Saturday evening, at the United States Grand Jury room, Mr. Thomas G. Young, U. S. Marshal, was presented with a handsome and costly gold watch—a testimonial from the Assistant Marshals who took the late census of Oregon. Eighteen of them joined in the purchase and presentation, the watch and chain costing $300. Mr. D. C. Ireland, Assistant Marshal for Multnomah District, made the presentation, remarking that the watch was given as a slight testimonial of the high regard which the Assistants have for their Chief, and as an acknowledgment of the valuable aid he had given them during the time they were engaged in their arduous and sometimes unpleasant labors, and particularly, as a recognition of his efforts to procure for his Assistants such just compensation as their labors deserved. Mr. Young, in accepting the gift, replied that he did not feel that the testimonial was something due him, as he had only done what he conceived to be his duty. In speaking of the manner in which the census had been taken and reported to the Bureau, he expressed satisfaction in being able to say that the report was placed among the first and most complete, as the, and for this flattering rank, he fully acknowledged the highest credit to be due the Assistant Marshals, themselves, and regretted that the Government had not seen fit to pay them as their peculiar merited. He would still continue whatever efforts were in his power to obtain from Congress proper remuneration to the Assistant Marshal of Oregon. After the presentation was over, the guests assembled repaired with the presentation to the adair, to Burchard's Restaurant and partook of an oyster supper, Deputy Marshal John Dolan acting as master of ceremonies.

ACKNOWLEDGMENT OF RELIEF FUNDS.—Mayor Wasserman has received the following letter acknowledging the receipt of $1,000 contributed in this city to the Wisconsin Relief Fund:

MAYOR'S OFFICE, Milwaukee, Nov. 3, 1871.

Hon. Philip Wasserman, Mayor of Portland, Oregon:

DEAR SIR: Your telegram conveying the intelligence of the donation of $1,000 by the citizens of your city for the relief of the sufferers, was received and the draft duly honored. The money is placed in the Treasurer's hands for the relief of the destitute. Rest assured that it will be rightfully expended. Please to convey to the citizens of your city my thanks and the prayers of a suffering and destitute people for their generous donation.

Yours, very respectfully,
H. LUDINGTON, Mayor.

PORTLAND LIBRARY.—In addition to the long list of books announced in our paper Saturday —— the following have been placed in the Library:

"My Wife and I," or Harry Henderson's History, by Harriet Beecher Stowe.

"Dene Hollow," a Novel, by Mrs. Henry Wood, authoress of "East Lynne."

"Richard Vandermarck," a Novel, by Mrs. [illegible] S. Harris, authoress of "Ruttledge."

"King Arthur," a Poem in Twelve Books, by Edward Bulwer, Lord Lytton.

"The Living Female Writers of the South," Edited by the author of "Southland Writers."

"Questions of the Day," Economic and Social, by Dr. William Elder.

CHEATING IN BUTTER ROLLS.—The *Bulletin* brings the charge against butter dealers that they sell fourteen ounce rolls for pound rolls. If this is so the dealers ought to reform their butter "ag" and become better butter men. One of them attempts to explain the short weight by saying that "the butter shrinks, don't you see?" We confess that we can't quite see it, but perhaps the butter seller is right, and he may know precisely how the little rolls are made to "shrink." If we were to attempt a philosophical explanation of the short weight phenomenon, we should say it came from the cows eating short grass—and that's what we know about farming.

RAILROAD CONTRACT LET.—We learn that Messrs. Abbott, Lamb and Malthrop of this city have been awarded the contract for constructing a twenty-five mile section of the Northern Pacific Railroad, commencing at the end of the section now in course of construction, or twenty-five miles northward from Kalama, a point a short distance below Pumphrey's. The contractors were engaged on Saturday in the execution of bonds for the performance of the work. Mr. Abbott is one of the builders of the East Portland bridges, and Capt. Malthrop is one of the contractors on the Oregon Central Railroad.

GEOLOGY OF JOHN DAY VALLEY.—We are informed that the Yale party, accompanied by Rev. Thos. Condon, made a thorough examination of the old lake fields of Eastern Oregon, but more particularly the upper and later one of John Day Valley. They discovered fossil remains in great variety, including extinct species of the rhinoceros, mastodon, lion, horse and other animals. Among others was a three-toed horse, and a species of horse not larger than a yearling calf.

CHRISTMAS BALL.—At the meeting of Baker Post, Grand Army of the Republic, Saturday evening, it was resolved to give a Christmas ball at the Washington Guard's Armory, Monday evening, Dec. 25th, and a Committee of Arrangements was appointed. It is in contemplation, also, to make the entertainment, in the early part of the evening, somewhat varied and attractive with exercises, musical and military.

ODD FELLOWS' FUNERAL.—Mr. C. O. Clark, a respected and useful citizen, died at his residence in this city last Saturday evening of consumption. Mr. Clark was a member of Hassalo Lodge and Wilson Encampment, I. O. O. F., of this city, and the burial ceremonies will be conducted by those bodies at half past nine o'clock this forenoon. For that purpose they are called to meet precisely at nine o'clock.

DEATH BY APOPLEXY.—Yesterday morning about seven o'clock Mr. J. Levy, a provision dealer on First street, dropped dead in a fit of apoplexy. It is said he was in the act of correcting a child who had greatly angered him, when death's stroke fell upon him. The remains will be buried this afternoon.

WILL IT NEVER REST?—Now comes the Kalama *Beacon*, and snuffs out the candle of Steilacoom by dumping that the terminus has been located there. Now let the ladies of Steilacoom go on with their enterprise of purchasing a hearse "for the good of the town." The terminus' ghost still stalks.

THE FIRST INSTALLMENT.—The swamp land gobblers of Columbia county are notified that the State is ready to receive the first installment of pay for the lands gobbled. How was it that the gobblers failed to guard themselves against this call?

TO SAIL.—It is now said the *John L. Stephens* will not be ready to sail for San Francisco before the latter part of the week. No day is yet announced.

PERSONAL.

Miss Susan B. Anthony will hold forth on the "power of the ballot" at Eugene City to-night. A few more footing days and we shall have done with Susan's days in Oregon.

E. L. Bristow, Grand Master, will visit the Lodges of Salem officially on Monday, Wednesday and Friday evenings of this week. We understand he will also soon visit and the Lodges of this city officially.

The Salem *Statesman* says: "Congressman J. H. Slater passed through our city on Friday bound overland to California and thence to Washington, where his presence is rendered necessary by the coming session of Congress." Slater? Slater? The name sounds oddly familiar; and yet, who is he?

The Eugene *Journal* of Saturday says: "C. H. Miller left Eugene City this morning for lower California, where he goes to spend the winter. He has probably visited his old home in this county for the last time." We consider that "Josquin" has treated us ill that he didn't visit the Webfoot hub.

We had the pleasure on Saturday of meeting with Professor O. C. Marsh, the principal of the Yale Geological Party now in this city. This is Mr. Marsh's second year in the fields of exploration. He will return to the East richly laden with rare specimens which will be added to the College Museum. The party will leave for San Francisco on the next steamer, and for home about Christmas.

COW IN A WELL.—Mr. Henry Weinhard, at the brewery, found a cow in his well yesterday. Though the well is a deep one the cow did not seem to be badly hurt. When our informant left the premises, a derrick had been rigged to draw her out. She belonged to a Mr. Holman. We cannot think of any object that cow could have had in going down into that well, unless she had joined in a conspiracy with the milk venders and went down to water her milk.

AMUSEMENTS.—A morning contemporary says that "the wearers of the buckskin being difficult to procure," the Theater is to be opened for pantomime, with "a clown, harlequin and pantaloon." We should say that the printer has been making terrible havoc with our contrere's "copy."

IS THAT SO?—A contemporary announces it as a fact that depositions are being taken in a suit for the possession of the Caruthers' estate! New and sensational again! Won't the claimants of that estate howl when they hear the news?

CHILDREN'S FESTIVAL.—On account of the death of a member of the Society, the children's festival of the Unitarian Sunday School will be postponed until Tuesday, November 28th.

SUNDAY SCHOOL CONTRIBUTION.—The children of St. David's Chapel Sunday School contributed yesterday, $2 90 for the Michigan relief fund.

PASSENGERS OVERLAND.—Fred. Currier, of this city, and wife arrived overland by railroad at San Francisco, on Saturday.

BUSINESS NOTICES.

CIGARS, TOBACCO, ETC.—S. L. Stone is selling goods at very low prices as will be observed by his notice elsewhere.

HOMES WITHIN THE REACH OF ALL.—Messrs. De Lashmutt & Burch explain in their column this morning how every one can get a nice little home on easy terms. Everybody should read the advertisement.

WORK of every description in the house finishing line will be done at short notice to the best of satisfaction.
PAUL RICHTER.

As S. L. Stone is closing out at cost his fancy goods, toys and willow ware, this is the last chance to buy cheap.

Kris Kringle's headquarters is at S. L. Stone's, next door to the Postoffice.

S. L. Stone is giving more toys and fancy goods for six bits than any house in town does for one dollar.

Boss TWEED and others of the Tammany Ring have been stirred up very lively of late, but that is nothing compared with the excitement caused by Kohn & Fishel, who have stocked their large clothing establishment, No. 91 Front street, with goods for winter wear to suit all classes, not only in style but in price. Seeing is believing, so go and examine their stock.

THE BIBLE CAUSE.

PORTLAND, Nov. 20, 1871.

TO THE EDITOR OF THE OREGONIAN:

Sir: It being generally known that the Rev. I. D. Driver would present the claims of the "American Bible Society" in the Rev. A. L. Lindsley's church yesterday morning, and enforce the duty of Christians to aid and co-operate in the circulation of the Bible on the Pacific coast, I attended with the expectation that an official agent of that invaluable institution, and who is supposed to give his whole time to this one grand object, would present the subject before his audience in such a manner as that every Christian heart present would leap for joy, and that many a face would be suffused with tears of gratitude that the Divine Being had condescended to make a revelation of himself to the children of men, and through that revelation make known a plan of salvation that Angels admire, and that millions of the human family glory in.

But the disappointment was great. The speaker took a very good passage for his subject—Matthew xx, 1. This address embraced every conceivable topic that could be crowded into the space of 40 minutes, but not a word was said about the Bible itself, or the duty of Christians in reference to it, until just at the close, when the speaker told a few facts about the origin of the American Bible Society, and two incidents as to its personal value. The congregation, however, were so tired and impatient at the rambling and pointless address, and the many repetitions and ridiculous modulations of voice, that the apparent desire of almost every hearer was, "I wish he had done." I never saw a congregation so impatient.

I went there with my mind made up to give as much of a contribution as I could afford. I gave it from a sense of duty. Had my giving depended on the effect produced by the speaker, I would not have given a cent. I presume this was the feeling of the great majority present.

When I think of the preciousness of the Bible, the grand doctrines that it teaches, the glorious salvation that it reveals, the purity that it inculcates, the precious promises that makes known, and the glorious hopes that it inspires, I feel amazed at the tameness and coldness of many of its professed advocates. I thank God that it will not always be so. He who is the grand subject matter of the Bible, and who gave the Spirit to inspire its writers, will yet call into the field men and women, baptised into His Spirit, and consecrated to His service, who will cause it to be valued at its proper worth, and whose labors will call forth a response that will encircle our globe.

The free circulation of this precious Book is already pulling down the temple of ignorance, superstition and idolatry, and erecting on its ruins the glorious temple of knowledge, truth and purity, justice, liberty and peace. A VISITOR.

PUBLIC SPEAKERS AND SINGERS will find "*Brown's Bronchial Troches*" beneficial in clearing the voice before speaking or singing, and relieving the throat after any unusual exertion of the vocal organs, having a peculiar adaptation to affections which disturb the organs of speech. For Coughs and Colds *the Troches* are effectual.

TESTIMONIAL.

We the undersigned having been the recipients of the services of Mrs. M. C. White in teaching the science of Music on the Pianoforte, take pleasure in giving a hearty testimonial that we have employed her in our families as a teacher of her "New Method of Instruction," and that it has proven superior to any method we have ever known. And that although the *first cost* may be a trifle greater than some others, we believe it to be in the aggregate much cheaper, beside being a great economy in point of time. We, therefore, take pleasure in recommending her to the patronage of all who may be desirous of obtaining a musical education, as a very superior instructor.

To those who desire to know more about it before increasing any expense, we give a cordial invitation to call at our homes and interview other pupils.

I know it to be by far the best light we have ever used in our family. I know of nothing that can compare with it. I prefer it to any gas burner I have ever seen. For safety, for economy, and for the perfection of the light, it deserves to come into universal use.

Arrest Decay.

When a plant or a tree begins to decay it must needs die. It cannot be revitalized. But it is not so with human beings. A human ruin can be repaired, strengthened, restored, though a brown leaf or a withered blade of grass can never be made green again. In the autumn of life, or even in its winter, when nature seems to be giving away under the pressure of years, it is still possible to retard the progress of decay, and to lend to age more than its wonted vigor. As a means of promoting this object, Hostetter's Stomach Bitters is unquestionably the most potent of all restoratives. It will not make the old young, but it will prevent, lessen, or sooth the infirmities which are the usual accompaniments of the decline of life. For debility and lack of nervous power, from whatever cause arising, it is the medicine that of all others before the world, best deserves the name of a *specific*. In purity, in invigorating properties, in its adaptation to weak stomachs and feeble organizations, it has no competitor among the tonics of the pharmacopœia, nor among proprietary remedies. Besides its strengthening principle, it possesses regulating properties of the highest order, and as an anti-bilious medicine is far preferable to any of the preparations containing mercury. Time has shown that for physical decay, nervous debility, dyspepsia, bilious disorders, and intermittent fever, Hostetter's Bitters is a remedy without a rival. This is the season of the fall of the leaf; let it remind the old, the feeble, the sickly, to invigorate and regulate their systems with this great vegetable tonic and alterative.

NEW YORK

LIFE INSURANCE COMPANY!

PURELY MUTUAL!

ASSETS.....$17,000,000!

ISSUED 9,025 POLICIES IN 1870.

Insuring Over $27,000,000!

WM. H. BEERS, Vice President and Actuary. MORRIS FRANKLIN, President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are—

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has a dividend which can be used in the payment of the *second and all subsequent annual premiums*.

7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although equitably claims, are not LEGALLY so. The records of this Company bear many acknowledgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

LIFE INSURANCE COMPANY,

OF HARTFORD, CONN.

FOUNDED IN THE YEAR 1820.

Adopted Mutual System in the year 1861.

ACCUMULATED CAPITAL OVER.....$16,000,000
ITS ANNUAL INCOME OVER.....6,000,000
WHOLE NUMBER OF POLICIES ISSUED TO DATE, NEARLY.....160,000.
NUMBER OF POLICIES ISSUED IN 1870.....11,217.

THE ÆTNA RANKS AS ONE OF THE FIRST COMPANIES IN THE LAND!
IN INCOME, IN ASSETS, IN NUMBER OF POLICIES, IN AMOUNT INSURED, IN SOLIDITY AND STRENGTH, IN SOUNDNESS, CHEAPNESS, PROMPTNESS AND SUCCESS.

THE AMOUNT OF DIVIDEND A COMPANY CAN PAY ITS INSURED, DEPENDS UPON THE RATES charged for insurance, the AMOUNT of business done, the EXPENSE of doing it, the INTEREST on its investments, the CARE exercised in the selection of its risks, and the TIME when such dividends are paid. In regard to these, as also all other points, the ÆTNA is unsurpassed in advantages by any other Insurance Company in the United States.

The *New York Insurance Monitor* says of the ÆTNA:—"No Life Insurance Company ever achieved so complete a success as this popular institution. Its popularity is altogether unprecedented in the annals of commercial enterprise in this country."

The *New York Independent* says of the ÆTNA LIFE:—"It is to-day one of the *soundest* and *most reliable* Insurance Companies in the United States—every dollar of its assets well secured, more than providing for all liabilities; and it eminently deserves a still greater patronage and the subscribing confidence of the public."

R

FARMER GRANT.

My summer rambles take me through
Some quaint and some neglected places,
Amongst the men with brawny arms
And ready faces.

And such a one I met last night,
At county fairs the constant winner,
His face was brown, his hands were hard,
His name was Skinner.

Thus spake the agricultural man,
While sweat upon his forehead glistened,
And I sat calmly on the fence
And smoked and listened:

"Some say that Grant ain't just the man,
To plow the corn and turn the stubble,
But, fellr, I reckon's actin' so
What makes the trouble.

"He don't go lecturin', to be sure,
About the care to wheat when ripening;
But gosh! the way his crops come in
Beats thunder'n lightning.

"He hain't writ books to tell you how
To pick out pumpkin seeds that's holler,
But, mind you, when his corn's laid by,
He ploughs his holler.

"We're no'rm critters, sl'ers quick
To praise or blame a man in station;
We'd prob'ly show a heap more sense
By moderation.

"Now Grant don't know 'bout ploughing deep,
Or drainin', either, that I know on,
But you just bet the pay he drags
Will do to sow on.

"And look, too, at his garden truck!
It comes so airly, by thunderation,
That he has raised the biggest beats
In all creation.

"And when he takes his little scythe
And rears about his person swingo it,
As sure's you're born, he strikes for grain,
And always brings it.

"'It's luck!' well maybe 'tis, you know,
I won't say 'tis, nor won't deny it,
But you bet some of your great pain
Just try it.

"It may be luck; it may be fate;
Sometimes I ask myself 'what was it?'
The only thing I know is, that
The critter dux it.

"The Britishers are paying up;
The rebs have well nigh quit cussing;
Our debt is shrinking fast and fast,
And things are thriving.

"The lion, too, is at his pipe for peace;
The nigger sings his land lessoner,
And, as the boys say down in town,
That's what ails Banner."

"And so, I've 'bout made up my mind
That things can't chestly by mended;
The best we all in all, the farm:"
Is darn well tended."

We were informed that the *John Z. Stephens* will leave here on Thursday for San Francisco.

There is a very dull shipping market East per sail, the railroad being the favorite route at present. This is in a great measure the result of higher freight lately by sail, owing to the difficulty vessels have in obtaining charters on this side. The rates per sail are as follows:

Measurement, 25@30c per 100; weight, ½c per lb; coal, 1½@ per R. oils, 70@80c per case; canned goods, 40c per case; Combed, 17½@ per 100 lbs; Super, $2 50@3 75 per bbl; nails, 50@87½c per keg; plaster, $2 per bbl; rock, $2 per bbl; lumber, 33@36c per M; iron, $20 per ton; coal, $8@11 per ton; agricultural goods, 2½@ per cent.

A number of Wall manufacturers of the Atlantic States at a meeting in New York city, Oct. 30th, decided to advance their wholesale prices 75c per keg for all 4½ lb. nails. The notice is said to have been in consequence of the loss of 140,000 kegs which were destroyed by the Chicago fire. The following is the new schedule of prices:

10d to 60d, $4 65 per keg; 8d to 9d, $4 90; 6d to 7d, & 16; 4d to 5d, $5 40; 3d, $6 15; 2d to 3d fine, $6 90. Cut spikes, all sizes, $4 90. Finishing, flooring, box, coopers', clinching, trunk and tobacco, as follows: 3d, $6 65; 4d, $6 40; 5d, $6 15; 6d, $5 90; 7d, $5 65; 10d and larger, $5 15. Clinch nails, 2 to 2¼ inch, $6 65; 2½ to 2¾ inch, $6 90; 3 inch and larger, $6 15. In half kegs, 50c per cwt more than the above.

Produce Market.

WHEAT—Private dispatches gave Liverpool quotations to-day at 12s. The market in San Francisco is unchanged. There are no sales; it is understood that we are aware of. Shippers still offer at $2 30@2 35 ₹ cental, sacked and delivered.

FLOUR—There is more inquiry from Victoria and Puget Sound, with several large orders waiting filling by the first steamer leaving. We quote market for extra at $7 50@8 00 ₹ bbl; superfine, $6 50@7 00.

OATS—The demand is active for local consumption, making it difficult, owing to light receipts, to meet it. We quote market for $2 45@2 55 ₹ cental sacked.

BARLEY—The demand for brewing is not so active, and consequent receipts from Walla Walla are slacking off. We quote market firm at $2@2 25 ₹ cental.

POTATOES—Not much improvement is visible, fancy all choice Oregon coming in at $1 75@2 00; Burbanks, jobbing lots. Choice Oregon are very scarce, and consequently command high prices. The market is flooded with inferior Oregon and California with prices for same more or less nominal.

HAY—The market is well supplied with all descriptions at prices ranging for Timothy baled, $23@30 ₹ ton; other kinds, $15@20 per ton.

HIDES—Receipts are free, and the trade taking in jobbing lots at 47½@50c and dealers at 40@42½c ₹ doz.

RAILROAD LANDS.

OFFICE OF LAND DEPARTMENT,

OREGON & CALIFORNIA R. R. CO.

AND

European and Oregon Land Co.,

PORTLAND, OREGON, August 1, 1871.

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption-privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms:

The applicant filing in this office a claim in the form prescribed, to-wit:

Pre-emption, date, No. ——.

To the Land Agent of the European and Oregon Land Company:

SIR: You are hereby notified that I have settled upon and improved (description of land) in the county of State of Oregon containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, (unless thereof shall be sent by the Company's Land Agent, through the Postoffice, as otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

(Name of applicant.)

(Postoffice address.)

When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form:

PRE-EMPTION CERTIFICATE, No. ——.

This is to certify that —— of —— county, State of Oregon, has this day filed in this office a pre-emption claim to (description of premises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, (which is to be made without reference to improvements) when the same shall be placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 26, A. D. 1871.

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party as the bolder thereof within sixty days from the date of said notice, the Company will be at liberty to sell the land to any other person.

(Signed) ——, Land Agent of the E. & O. Land Co.

The lands will be appraised by a competent, disinterested party, under oath, at their actual present value—no fancy or prospective price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not exceeding one hundred and sixty acres to one person, payable in five equal annual instalments, with interest from date of contract, at ten per cent, per annum, principal and interest payable in United States Legal Tender Notes. Warranty deeds given after United States Patent issued, upon payment in full.

Blank forms of application furnished upon request.

J. R. WOOD, Land Agent.

CITY ADVERTISEMENTS.

Ordinance No. 1108.

AN ORDINANCE TO REGULATE THE STORAGE and sale of Gunpowder, and other explosive materials.

The City of Portland does ordain as follows:

Section 1. No person shall keep or offer for sale any gunpowder in any building or place in the City of Portland, without having first obtained a license therefor.

Section 2. The license for selling gunpowder shall be five dollars per quarter, to be issued as other licenses are issued under the provisions of Ordinance 934, entitled "An Ordinance to impose and regulate licenses in the City of Portland."

Section 3. No person shall receive, keep or store, or aid or assist any person in receiving, keeping or storing gunpowder, in a larger quantity than five pounds, in or into any building, or upon any premises, unless the person receiving, keeping or storing the same is duly licensed to sell gunpowder.

Section 4. No person or persons duly authorized to sell gunpowder, as hereinbefore provided, shall keep, store, or have in any one place, more than twenty-five pounds of powder, which shall be kept in an air-tight, metallic vessel marked with the word "Gunpowder," in plain Roman letters, not less than three inches in height, and of powder, which vessel shall be placed, or kept, at all times, conspicuously in view near the entrance of the premises where kept, and convenient for removal therefrom.

Section 5. Upon the front of every building or premises where powder is kept, there shall be kept in a conspicuous place a sign with the word "gunpowder" painted thereon in Roman letters, not less than three inches in height.

Section 6. No person shall convey, or cause to be conveyed, or assist in conveying in any vehicle any gunpowder, unless the same shall be securely packed in close packages, nor unless such packages shall be securely fastened while in or on such vehicle.

Section 7. No vessel shall be allowed to remain at any wharf more than twenty-four hours with gunpowder on board, except such as may be kept for ship's use, and such vessel shall be at the time of night, in which a man shall be kept on duty on board all night. All gunpowder landed or placed on any wharf, sidewalk, street or public way for forwarding or shipment shall be forwarded or shipped immediately after it shall be so landed or placed.

Section 8. The provisions of this Ordinance shall be deemed to apply to "Giant Powder," "gun cotton" or any other explosive substance having an explosive power equal to that of ordinary gunpowder.

Section 9. Any person or persons violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor and on conviction before the Police Judge, shall be fined not less than ten nor more than one hundred dollars, or by imprisonment in the city jail not less than two nor more than twenty days, or both, at the discretion of the Police Judge.

Section 10. The officers of the Fire Department and Police are directed to see that the provisions of this ordinance are enforced and to make complaint before the Police Judge for the violation of its provisions.

Section 11. All ordinances or parts of ordinances conflicting herewith are hereby repealed.

CONTEMPTIBLE!

THE POPULARITY WHICH THE

OAHU BITTERS!

Are rapidly acquiring has induced certain jealous parties in the darkness of night to cover up the Posters of these Bitters with those of their own through the city.

All may see in this not the stooping attitude of a hunting.
